Editorial Statement
Articles should be submitted via email to the Editor at dmoss@saybrook.edu as previously unpublished submissions and should conform to American Psychological Association (5th Edition) format, especially the citations and reference list. Articles should be journalistic, telling the story of an application, research topic, or treatment approach. Submissions should be in Microsoft Word or WordPerfect format and double-spaced. Features should be 1,500 to 2,000 words; department articles, 700 words; and letters to the editor, 250 words. Articles should include an abstract of about 80 words and up to 5 keywords. Include city/state, main professional affiliation information, a digital headshot photo for each author, and a complete physical and email address for the corresponding author. The Editor is not responsible for the loss or return of unsolicited articles.

Figures and Tables: Keep tables and figures to a minimum (see APA 5 for guidance). Figures should be submitted separately as JPEG, TIFF, or EPS files of 200 dpi or greater. Call out all figures after the references; do not embed captions in figures. If using or adapting figures or tables from another source, get permission from the original publisher, and provide complete citation information from the original source. If using a photo of an identifiable person, get a written release with permission to use it in print.

The statements and opinions in the articles of the journal are solely those of the individual authors and contributors and not of the publisher or the Association for Applied Psychophysiology and Biofeedback.
Introducing the NeXus-10/BioTrace+ Wireless Biofeedback System.

Your practice has evolved. Has your equipment?

Few things are more accelerated than the pace of change in the field of biofeedback. That's why more clinicians and researchers are turning to the NeXus-10/BioTrace+ Wireless Biofeedback System. Not only does it offer true portability and wireless freedom, it's been bundled with BioTrace+ software package designed for seamless compatibility.

Together, they create a comprehensive system that's scalable to meet your needs now and for the foreseeable future.

- More Mobile — Wireless Bluetooth® technology facilitates training in virtually any environment. Flash memory supports up to 1 gigabyte.
- More Versatile — 10 input channels and full scalability allow you to collect and evaluate a richer suite of data.
- More Precision — 24 bit resolution provides a clearer, more precise picture.
- More Options — Multiple instruments, including true biofeedback-driven games designed just for children.
- More Customization — Easy to configure to the needs of your practice or your research.

NeXus-10/BioTrace+. You've built a growing practice. Now you need the biofeedback solution that will grow with you.

Exclusive Distributor

Stens

Leading Suppliers of Biofeedback Technology

BioTrace+
- True dual-monitor support
- Real-time, 3D animation
- Pre-loaded with screens and protocols
- Leverage a full suite of media types

NeXus-10
- Two digital inputs for oximetry, pulse, and EVENT recording
- Four fast inputs collect 2,048 samples/sec for EEG, ECG, EMG, EOG and Slow Cortical Potentials
- Four analog inputs (BVP, HR, GSR, temperature, respiration, skin potential)
- Bluetooth® wireless technology ensures a reliable connection

Information for Readers

Postmaster and change of address: Send address changes to Biofeedback, PO Box 1897, 810 East 10th Street, Lawrence, KS 66044-8897 USA. AAPB members should send change of address to the Association for Applied Psychophysiology and Biofeedback, 10200 West 44th Ave., No. 304, Wheat Ridge, CO 80033-2840; phone: 303-422-8436; fax: 303-422-8894; email: aapb@resourcenter.com.

Claims: Claims for missing issues can be honored only up to 3 months for US recipients or up to 6 months for subscribers outside the USA. Single copy prices ($40 for U.S./$47 for foreign) will be charged for missing issues older than 3 months (6 months outside the USA). Send claims to Biofeedback, PO Box 1897, 810 East 10th Street, Lawrence, KS 66044-8897; phone: 785-843-1235; fax: 785-843-1274; email: aapb@resourcenter.com.

AAPB membership: Biofeedback is a benefit of membership in the Association for Applied Psychophysiology and Biofeedback. For membership information and an online application visit the society's Web site at www.aapb.org or contact the society at Association for Applied Psychophysiology and Biofeedback, 10200 West 44th Ave., No. 304, Wheat Ridge, CO 80033-2840; phone: 303-422-8436; fax: 303-422-8894; email: aapb@resourcenter.com.

Reprints: Individual reprints are available from the authors, but quantity orders (more than 100) must be purchased from the printer. For price quotations and delivery information, contact Jenny Shoemaker, Alliance Communications Group, 810 East 10th Street, Lawrence, KS 66044-8897; phone: 785-843-1235 ext. 262; fax: 785-843-1274; email: jschoemaker@acgpublication.com.

Copyright: Material printed in Biofeedback is covered by copyright. All rights are reserved. Except under circumstances within "fair use" as defined by the copyright law, no part of this publication may be reproduced, displayed, or transmitted in any form or by any means, electronic or mechanical, including photocopying or by an information storage and retrieval system, without the prior written permission of the copyright owner, the Association for Applied Psychophysiology and Biofeedback. BioFeedback Resources International

Health Training Seminars

present

BIOFEEDBACK & NEUROFEEDBACK CERTIFICATION PROGRAMS

Our instructor/practitioner are among the most experienced and successful in biofeedback. Many of the professionals we have trained over 34 years are today among the most successful biofeedback practitioners in the world. Our unique strategies provide a systematic, guided approach to biofeedback clinical and economic success and meet all BCIA didactic requirements. Health Training Seminars is approved by the APA to offer CE for psychologists and maintainers responsibility for the program.
