The "SUITE" Deal
Just Got Better!

Thought Technology is proud to launch two new specialized Suites: EEG Suite and Physiology Suite. The Suites take full advantage of functions and features of the powerful Biograph Infiniti software platform. They provide complete control over your entire clinical process, including: assessment, training, reporting and demonstrating outcome. For each protocol, the Suites provide signal quality verification screens, multimedia feedback screens and quick report screens showing in-session trends & learning curves.

The EEG Suite contains 6 scripts and more than 100 screens (over 21 from expert clinicians) for 1 or 2-channel EEG on 1 or 2 monitors. It comes with both standard protocols and a variety of template screens for user-defined protocols:

- Standard Bands: Alpha, Alpha peak frequency, Alpha-Theta, Low-high Beta, Beta-Theta, SMR-Theta, Wide-band inhibit, etc.
- 3 User Bands: 1 reward (up), 2 inhibits (down)
- 6 User Bands: 2 rewards (up), 4 inhibits (down)
- Multiple Bands: 1 reward, 9 inhibits

The EEG Suite also offers many advanced tools for assessment and follow-up:

- Pre/Post-training baseline assessment scripts
- A 4-activity EEG assessment script: eyes-open, eyes-closed, and 2 tasks
- Cross-session trend tools to show your client’s progress
- A set of hybrid EEG and peripheral integrated biofeedback screens

EEG Suite features include:
- On-the-fly cut-off frequency adjustments
- Impedance detection
- Auto-threshold instruments with user-specified target percentage of time
- Single and dual-monitor display screens
- Real-time epoch statistics for instant trend graphing
- Out-of-this-world alpha-theta relaxation script
NEW

Physiology Suite features:
- Skin-conductance driven relaxation script with audio induction track
- User-defined pre-labelled event-markers (hot key activated)
- Real-time epoch statistics for instant trend graphing

The Physiology Suite contains a complete set of standard biofeedback tools to get a total physiological perspective on your client's sympathetic and parasympathetic processes, including: Temperature, Skin Conductance, Surface EMG, Respiration and Heart rate variability (HRV).

The Physiology Suite contains more than 80 screens and over 14 scripts, and provides you with advanced tools for assessment and follow-up:
- Pre/post baseline assessment
- SC verbal Relaxation exercise
- Training scripts (10 x 1 min trials)
- A 7 activity stress assessment script that takes your client through a sequence of stress/relax cycles and generates a report to rapidly identify hyper- or hypo-reactivity in each modality.

The two Suites offer 17 new animations, 15 MP3 (music & ambiance), 20 MIDI songs and many other new multimedia feedback options:
- DVD (4 action control: shrink, zoom, pause & sound)
- Morphing animation sequences, 3 stage puzzles
- Nature sound audio tracks
- MIDI splitter

Information for Readers and Contributors

Submission guidelines: Articles should be submitted via email to the Editor (dmchess@cyber_sync.com) as previously unpublished submissions and should conform to American Psychological Association (6th Edition) format, especially the citations and reference list. Articles should be journalistic, telling the story of an application, research topic, or treatment approach. Submissions should be in Microsoft Word or WordPerfect format and double-spaced. Features should be 1,500 to 2,000 words; department articles, 700 words; and letters to the editor, 250 words. Articles should include an abstract of about 80 words and up to 5 keywords. Include degrees, main professional affiliation, and a digital headshot photo for each author; also, a complete physical and email address for the corresponding author. Keep tables and figures to a minimum (see APA 5 for guidance). Figures should be submitted separately as JPEG TIF, or EPS files or 200 dpi or greater. Call out all figures and tables in text. Provide a list of captions for all figures after the references; do not embed captions in figures. If using or adapting figures or tables from another source, get permission from the original publisher, and provide complete original citation information. If using a photo of an identifiable person, get a written release with permission to use it in print. The Editor is not responsible for the loss or return of unsolicited articles.

Postmaster and change of address: Send address changes to Biofeedback, PO Box 1897, 810 East 10th Street, Lawrence, KS 66044-8897. AAPP members, send change of address to the Association for Applied Psychophysiology and Biofeedback, 10200 West 44th Ave., No. 304, Wheat Ridge, CO 80033-2840; tel. 303-422-8436; fax 303-422-8894; email: aapb@resourcecenter.com.

Claims: Claims for missing issues can be honored up to 3 months for US recipients or up to 6 months for subscribers outside the US; single copy prices ($40 for US/$47 for foreign) will be charged for older missing issues. Send claims to Biofeedback, PO Box 1897, 810 East 10th Street, Lawrence, KS 66044-8897, tel. 785.843.1235; fax: 785.843.1274; email: aapb@resourcecenter.com.

AAPP Membership: Biofeedback is a benefit of membership in the Association for Applied Psychophysiology and Biofeedback. For membership information and an online application visit the society’s Web site at www.aapp.org or contact the society at Association for Applied Psychophysiology and Biofeedback, 10200 West 44th Ave., No. 304, Wheat Ridge, CO 80033-2840; tel. 303-422-8436; fax: 303-422-8894; email: aapb@resourcecenter.com.

Reprints: Individual reprints are available from the authors, but quantity orders (more than 100) must be purchased from the printer. For price quotations and delivery information, contact Alliance Communications Group, 810 East 10th Street, Lawrence, KS 66044-8897; tel. 785.843.1235; fax: 785.843.1274.

Copyright: Material printed in Biofeedback is covered by copyright. All rights are reserved. Except under circumstances within “fair use” as defined by the copyright law, no part of this publication may be reproduced, displayed, or transmitted in any form or by any means, electronic or mechanical, including photocopying or by an information storage and retrieval system, without the prior written permission of the copyright owner, the Association for Applied Psychophysiology and Biofeedback. Requests can be forwarded to Alliance Communications Group, 810 East 10th Street, Lawrence, KS 66044-8897; tel. 785.843.1235; fax: 785.843.1274.

AAPPB Foundation Needs Your Help

Did you know that the AAPP Foundation sponsors student grants, research studies and other critical areas of growth for the study and implementation of applied psychophysiology and biofeedback?

One of the most successful programs for the Foundation has been its support of student travel scholarships, which are given to graduate students to attend the AAPPB Annual Meeting so they can present their work, network and expand their professional opportunities.

We need your contributions to help us continue to fund these important efforts.

If you are interested in supporting this effort, send a check in any amount to: AAPPB Foundation, 10200 W. 44th Ave., Suite 304, Wheat Ridge, CO, 80033.

Your donation is tax deductible.

NEUROFEEDBACK FUNDAMENTALS WORKSHOP

Lynda Thompson Ph.D., Michael Thompson, M.D. of the Biofeedback Institute of Toronto
Authors of THE NEUROFEEDBACK BOOK
Invited Presenters & Teachers on 5 Continents

Guest Faculty:
Professor Vietta Sue Wilson Ph.D.
Kinesiology & Health Science, York University
James Thompson, BHK, M.Sc. Ph.D. Candidate, Penn State

Basic Concepts in Applied Psychophysiology

Join us here @ Stoney Lake
September 24 – 28, 2007
June 3 – June 7, 2007

Low Energy Neurofeedback System (LENS)

Multi-Level (Introductory to Advanced) Training

Throughout this training session, attendees will learn the simple but powerful LENS protocols and techniques that use up to 3 1/2-minute treatments, and an average of 13 sessions, to help ameliorate the symptoms of TBI, PTSD, Childhood Developmental and Autistic Spectrum Disorders, Fibromyalgia, Chronic Fatigue, and other disorders.

In-depth discussions include brain mapping and other evaluations, treatment planning, feedback administration, and treatment evaluation.

Multi-level (introductory to advanced) 4-day training

Futurehealth Winter Brain Meeting:

Palm Springs, February 3 - 7, 2006*

AAPB Annual Meeting: Portland, Oregon, April 6-9, 2006*

* Presented in conjunction with Stephen Larsen, Ph.D.

Full Four days: $750 • Advanced Registration $700**

**(30 days prior to event)
Advanced consultations also available.
