Nexus-10
Wireless Biofeedback System

The Next Generation Biofeedback Solution

NeXus-10

For those who have a need for a truly portable, multi-channel, wireless biofeedback system that offers clinicians and researchers an unmatched combination of power, flexibility, and functionality.

BioTrace®

To provide superior support for the NeXus-10, we’ve combined it with BioTrace®, software that gives clinicians and researchers new dimensions in flexibility and physiological monitoring while expanding biofeedback capabilities. BioTrace’s unique, multi-channel, customizable platform on the market, has been designed to work seamlessly with the NeXus-10, creating the most comprehensive system ever designed.
